Sun Mota

Staff/Lead Frontend Engineer

eunsun.mota@gmail.com / linkedin.com/in/eunsunmota / sun-mota.github.io

Staff Design & Frontend Engineer with 10+ years of experience architecting open-source design systems, scalable frontend infrastructure, and high-craft UI platforms. Proven track record at **Alaska Airlines, Verkada, and Roku**, leading cross-functional alignment, driving WCAG web accessibility standards, and integrating AI-assisted engineering workflows across enterprise ecosystems.

EXPERIENCE

OCTOBER 2024 – PRESENT

Alaska Air – Senior Frontend Engineer (Contract via Proliance)

javascript, Typescript, LitElement, Open Web Components, Storybook, Chai

- Architecting and scaling the **open-source Auro Design System** (@aurodesignsystem) to unify UI components across Alaska and Hawaiian Airlines applications.
- Integrating **accessibility (WCAG)** guidelines and **AI-assisted workflows** into the design system to optimize designer-to-developer handover.
- Facilitating **cross-brand migration architecture** supporting unified engineering workflows post-merger.

NOVEMBER 2023 – OCTOBER 2024

Verkada – Manager, Frontend Web Foundation

javascript, React, Redux, Typescript, Storybook, GraphQL

- **Led Web Foundation initiatives**, implementing monorepo architecture, lazy compilation, and CI/CD linting tools to elevate developer experience (DX) and build stability across engineering.
- **Established centralized Design System architecture**, building accessible UI components (WCAG compliant) and native internationalization (i18n) support across core enterprise platform features.

JUNE 2017 – NOVEMBER 2023

Roku, Inc – Manager & Senior UI/UX Engineer

javascript, VueJs, Nodejs, React, storybook, AWS, kubernetes, CI/CD, DynamoDB

- **Founded and scaled the UX Engineering team** from 2 to 7 engineers, balancing 60% hands-on UI implementation with 40% architecture, cross-functional strategy, and mentorship.
- **Architected end-to-end frontend deployment pipelines** (GitLab CI, AWS, Kubernetes), standardizing component libraries to accelerate feature release cycles.

MAY 2016 – JUNE 2017

Samsung Research America, Mountain View – Staff UI Engineer

javascript, es6, VueJs, Nodejs, jasmine, karma, cordova

- Led UI component architecture for Samsung Smart TV platform software; co-managed distributed engineering teams in India.

EDUCATION

Soongsil University, Seoul – Bachelor of Engineering (B.E.), Media Engineering
– Bachelor of Arts (B.A.), Business Management
